

Rosyth – Accommodation Options

There are many options available for accommodation locally depending on your requirements. For weekend commuting, there are local hotels (closest is the Hill Park Hotel, but double rooms only) in the immediate vicinity that do B&B. Although a very basic room is available locally from £100/week, most people prefer better quality accommodation. Hotels / B&B may be cost effective for 4 nights a week or short-term needs and have been used by our staff and students. There are 2 nearby B&Bs as well that are a few minutes' walk from the classroom and have been popular with past students.

Three Recommended Walking Distance Options

Further Away

If you plan to stay in the area for the full 6 months' duration of the course, it may be cheaper and better to get a room or flat in nearby Dunfermline. Some options for you to consider for accommodation are below. You could go for the rooms to rent to professionals in nearby Dunfermline (first 2 links) which, for £300 upwards per month, include bills (council tax, gas and electricity) or 1-bed flats (links 3 and 4) which are more expensive and you would have to pay these bills on top. There are bus links from Dunfermline or it is an easy bike ride if you do not have a car. Also, there is very little to do at night in Rosyth whereas Dunfermline is a sizable town 3 miles away.
